HEADMASTER'S MESSAGE TO THE CLASS OF 1989

Dear Member of the Class of '89:

As you read this message, you will have passed a very significant checkpoint in your life - the receipt of your high school diploma. Even more importantly, you will have gained a measurable number of educational skills and competencies. But this is still only the beginning of your journey. The process of learning, of gaining knowledge, and of intellectual growth never stops.

You have every reason to be proud of yourself and of your accomplishments. You have worked long and hard to get where you are and to gain this level of success. Think of your success as completing the first levels of a multi-level skyscraper. As the days and years progress, build new levels and go higher and higher. Build the tallest, strongest, and best equipped building you can. Make it your building! Personalize it! Build it your way and to fit your dreams and goals. As a Tech graduate, I know you have both the ability and the potential to be the giant skyscraper of success.

Know that you have the warmest of best wishes of the faculty and from myself. We wish for each of you the very best and look forward to hearing of your new successes and achievements as they occur.

Sincerely,

Christopher P. Lane
